Well water Analysis services

Is your water safe ?

Maintaining quality drinking water requires constant monitoring. Whether for the purchase or sale of a house, for the bi-annual verification of your personal well (in spring and fall), for the renewal of your mortgage, for opening a small business or when opening your cottage, bacteriological analysis of your water is essential.

We provide a container and simple instructions for taking a sample yourself. You can pick up the container and instructions at our lab in Shippagan during our regular business hours.

You can bring your water test for analysis Monday through Thursday from 8:30 am to 4:30 pm. An additional charge will apply if you bring your water test on Friday.

The cost of the analysis is \$ 53.50 (tax included). You will receive your test results within 24 hours.

Do you need our services for other needs? (color in your water, aesthetics, etc.)? Do not hesitate to contact us at 506 336-6600.

VALORÈS is accredited by CALA in accordance with ISO / IEC 17025 for this specific analysis.

5

1. Our facilities at Shippagan, 232 B Avenue de l'Église;
2. A sample bottle kit;
3. Take a sample of your water;
4. Fill out the form;
5. Return the sample to us with your form and identify your container using the label provided.
